Day-4: Building Dynamic Frontend Components

Osama Bin Nadeem

Slot: Friday (9 to 12)

00115125

OVERVIEW

On Day 4, emphasis shifted to crafting adaptable UI elements for a digital storefront. These elements strive to deliver an intuitive browsing experience, enabling shoppers to effortlessly engage with the platform. The objective was to architect and integrate versatile, fluid, and modular elements that can dynamically showcase merchandise information retrieved from Sanity CMS. Consequently, shoppers can seamlessly navigate the platform.

The project implement the following functionalities:

- Product Listing Page
- 2. Product Detail Component
- 3. Category Component
- 4. Search Bar
- 5. Cart Component
- 6 .Wishlist Component
- 7. Checkout Flow Component
- 8. User Profile Component
- 9. Footer and Header Components
- 10. Reviews and Ratings

"The best restaurant"

Last night, we dined at place and were simply blown away. From the moment we stepped in, we were enveloped in an inviting atmosphere and greeted with warm smiles.

Sophire Robson Los Angeles, CA

"Simply delicious"

Place exceeded my expectations on all fronts. The ambiance was cozy and relaxed, making it a perfect venue for our anniversary dinner. Each dish was prepared and beautifully presented.

Matt Cannon San Diego, CA
